We, the young people of Yerger High School, Hope, Hempstead County, Arkansas, though we are not old enough to vote, are keenly interested in the local option election to be held on Nov. 6, 1956. We feel that we ought to have a voice in this matter, for LIQUOR destroys youth! We appeal to the voters of Hempstead County to keep beer, whiskey, wine, etc. out of Hempstead County for our sake.

We, the young people of Yerger High School, Hope, Hempstead County, Arkansas, though we are not old enough to vote, are keenly interested in the local option election to be held on Nov. 6, 1956. We feel that we ought to have a voice in this matter, for LIQUOR destroys youth! We appeal to the voters of Hempstead County to keep beer, whiskey, wine, etc. out of Hempstead County for our sake.

# LET'S KEEP ... HEMPSTEAD COUNTY DRY AT LEAST 2 TO 1

Hope and Hempstead County had been dry for many years before the 18th Amendment (National Prohibition) was repealed, and then we had liquor stores and beer "joints" in Hope for several years. The Christian people stood these liquor stores and beer joints and consequently increase in drunkenness as long as they could and then petitioned for a special election on the question of "For and Against the sale of intoxicating liquors" in Hempstean County. This election was held in March, 1946. The vote was "DRY," 2232. "Wet" 1497. The County voted "Dry" by 735 votes.

The vote by precincts in 1946 election was as follows:

# LET'S KEEP ... HEMPSTEAD COUNTY DRY AT LEAST 2 TO 1

Hope and Hempstead County had been dry for many years before the 18th Amendment (National Prohibition) was repealed, and then we had liquor stores and beer "joints" in Hope for several years. The Christian people stood these liquor stores and beer joints and consequently increase in drunkenness as long as they could and then petitioned for a special election on the question of "For and Against the sale of intoxicating liquors" in Hempstean County. This election was held in March, 1946. The vote was "DRY," 2232. "Wet" 1497. The County voted "Dry" by 735 votes.

# LET'S KEEP ... HEMPSTEAD COUNTY DRY AT LEAST 2 TO 1

Hope and Hempstead County had been dry for many years before the 18th Amendment (National Prohibition) was repealed, and then we had liquor stores and beer "joints" in Hope for several years. The Christian people stood these liquor stores and beer joints and consequently increase in drunkenness as long as they could and then petitioned for a special election on the question of "For and Against the sale of intoxicating liquors" in Hempstean County. This election was held in March, 1946. The vote was "DRY," 2232. "Wet" 1497. The County voted "Dry" by 735 votes.

The vote by precincts in 1946 election was as follows:

# LET'S KEEP ... HEMPSTEAD COUNTY DRY AT LEAST 2 TO 1

Hope and Hempstead County had been dry for many years before the 18th Amendment (National Prohibition) was repealed, and then we had liquor stores and beer "joints" in Hope for several years. The Christian people stood these liquor stores and beer joints and consequently increase in drunkenness as long as they could and then petitioned for a special election on the question of "For and Against the sale of intoxicating liquors" in Hempstean County. This election was held in March, 1946. The vote was "DRY," 2232. "Wet" 1497. The County voted "Dry" by 735 votes.

The vote by precincts in 1946 election was as follows:

The Hope Real Estate Board URGES YOU TO VOTE

FOR Amendment 43 X

The Hope Real Estate Board favors adoption of Amendment 43 for the following reasons:

- . It's the long-sought answer, with equalized 20 percent/assessments/vto/school/revenue
- It puts a definite ceiling of 30 mills school operations, permitting showever whatever additional millage is required support bonded indebtedness
- Out-of-state industries considering sites Arkansas now or in the future are entitled taxes. A definite ceiling on millage wil encourage new industry to locate within our
- Adoption of Amendment 43 will result getting more real and personal proper on the tax books, and with equalized 20 percent assessments, will cause at decisive increase in school flinds and consequent make it not longer necessary for school di tricts to ask the voters for increased millage. year after vear...
- 4.7775001 It has been estimated by tax experts limit the school millage to thirty mills with school revenues.
- 6. Amendment 43 means a decrease in interes rates on future bond issues for school con struction. With more money available, with increased equalized assessments, /\*\*school bonds will be more attractive to investors The children of Arkansas will be the winner
- Without the adoption of Amendment A: our equalization of assessments at wen percent will collapse and the schools will right back where they have been all these past years ... short of funds!
- . Vote for Amendment 43 and let's reta constitutional control over millage rates Let's provide ample funds for schools and encourage industry.
- All members of the Real Estate Board have financed schools and truly desire the scho to have ample funds on which to operal

VOTE AGAINST AMENDMENT 45

To abolish the poll tax would take over \$580,000 from the Common School Fund each year.

Karr Shannon in October 21 Arkansas Democrat writes about Amendment 45:

"It places no deadline on registering as a qualified voter, as the poll tax law does. Hence voters can register up to midnight the day before any election, providing no time for compiling and printing lists of voters for election officials. With no official list of voters available, election judges would have no way to determine the qualified voters. As a consequence, almost anybody could vote. It is even possible that people could come in by the thousands from other states and vote in Arkansas elections. The proposal doesn't even stipulate that registered voters present official evidence of their registration when they appear at the polls.

Although lacking in many fundamentals though highly vulnerable to fraud, nothing can be done about it once it becomes the law. The legislature cannot amend, modify, clarify or enable it — because Section 3 makes it "self-executing" and states that it "requires no enabling act to put it into operation."

VOTE AGAINST AMENDMENT 45

To abolish the poll tax would take over \$580,000 from the Common School Fund each year.

writes about Amendment 45:

"It places no deadline on registering as a qualified voter, as the poll tax law does. Hence voters can register up to midnight the day before any election, providing no time for compiling and printing lists of voters for election officials. With no official list of voters available, election judges would have no way to determine the qualified voters. As a consequence, almost anybody could vote. It is even possible that people could come in by the thousands from other states and vote in Arkansas elections. The proposal doesn't even stipulate that registered voters present official evidence of their registration when they appear at the polls.

Although lacking in many fundamentals though highly vulnerable to fraud, nothing can be done about it once it becomes the law. The legislature cannot amend, modify, clarify or enable it — because Section 3 makes it "self-executing" and states that it "requires no enabling act to put it into operation."

VOTE AGAINST AMENDMENT 45

To abolish the poll tax would take over \$580,000 from the Common School Fund each year.

writes about Amendment 45:

"It places no deadline on registering as a qualified voter, as the poll tax law does. Hence voters can register up to midnight the day before any election, providing no time for compiling and printing lists of voters for election officials. With no official list of voters available, election judges would have no way to determine the qualified voters. As a consequence, almost anybody could vote. It is even possible that people could come in by the thousands from other states and vote in Arkansas elections. The proposal doesn't even stipulate that registered voters present official evidence of their registration when they appear at the polls.

Although lacking in many fundamentals though highly vulnerable to fraud, nothing can be done about it once it becomes the law. The legislature cannot amend, modify, clarify or enable it — because Section 3 makes it "self-executing" and states that it "requires no enabling act to put it into operation."

VOTE AGAINST AMENDMENT 45

To abolish the poll tax would take over \$580,000 from the Common School Fund each year.

writes about Amendment 45:

"It places no deadline on registering as a qualified voter, as the poll tax law does. Hence voters can register up to midnight the day before any election, providing no time for compiling and printing lists of voters for election officials. With no official list of voters available, election judges would have no way to determine the qualified voters. As a consequence, almost anybody could vote. It is even possible that people could come in by the thousands from other states and vote in Arkansas elections. The proposal doesn't even stipulate that registered voters present official evidence of their registration when they appear at the polls.

Although lacking in many fundamentals though highly vulnerable to fraud, nothing can be done about it once it becomes the law. The legislature cannot amend, modify, clarify or enable it — because Section 3 makes it "self-executing" and states that it "requires no enabling act to put it into operation."
